

Opinion*

of submitted package of biomedical information**

on request № 282053 от 12.01.2016

Request information

Research: 282053
Research date/time: 12.01.2016 19:11 MSC
Research duration: 120 s
Research date: 12.01.2016
Body position: lay
Diseases: —

Age: 53
Sex: male
Weight: 86 kg
Height: 172 cm
Quetelet index: 29
Index compliance: Excess body weight

Doctor's opinion

Indicator	Value
Pacemaker	sinus rhythm
Heart rate	51 beats per minute
Electric axis	40 degrees (normal axis position)
Pauses more than 2 seconds	none

Cardiac arrhythmias

Type of violation	Result
Sinus tachycardia	None
Sinus bradycardia	Revealed
Sinus arrhythmia	None
Supraventricular extrasystoles	supraventricular extrasystoles
Ventricular extrasystoles	None
Atrial fibrillation	None
Atrial flutter	None
Atrioventricular junctional tachycardia	None
Atrioventricular nodal re-entrant tachycardia	None
Atrioventricular re-entrant tachycardia	None

Cardiac conduction disorders

Type of violation	Result
Sinoatrialblock	None
First-degree atrioventricular block	None
Second-degree type 1 atrioventricular block	None
Second-degree type 2 atrioventricular block	None
Third-degree or complete atrioventricular block	None
Bundle branch blocks	None
Short PR syndrome	None
Wolf-Parkinson-White syndrome	None

Doctor's comments on research:

-

Suggestion for client:

it is desirable to consult with the your doctor

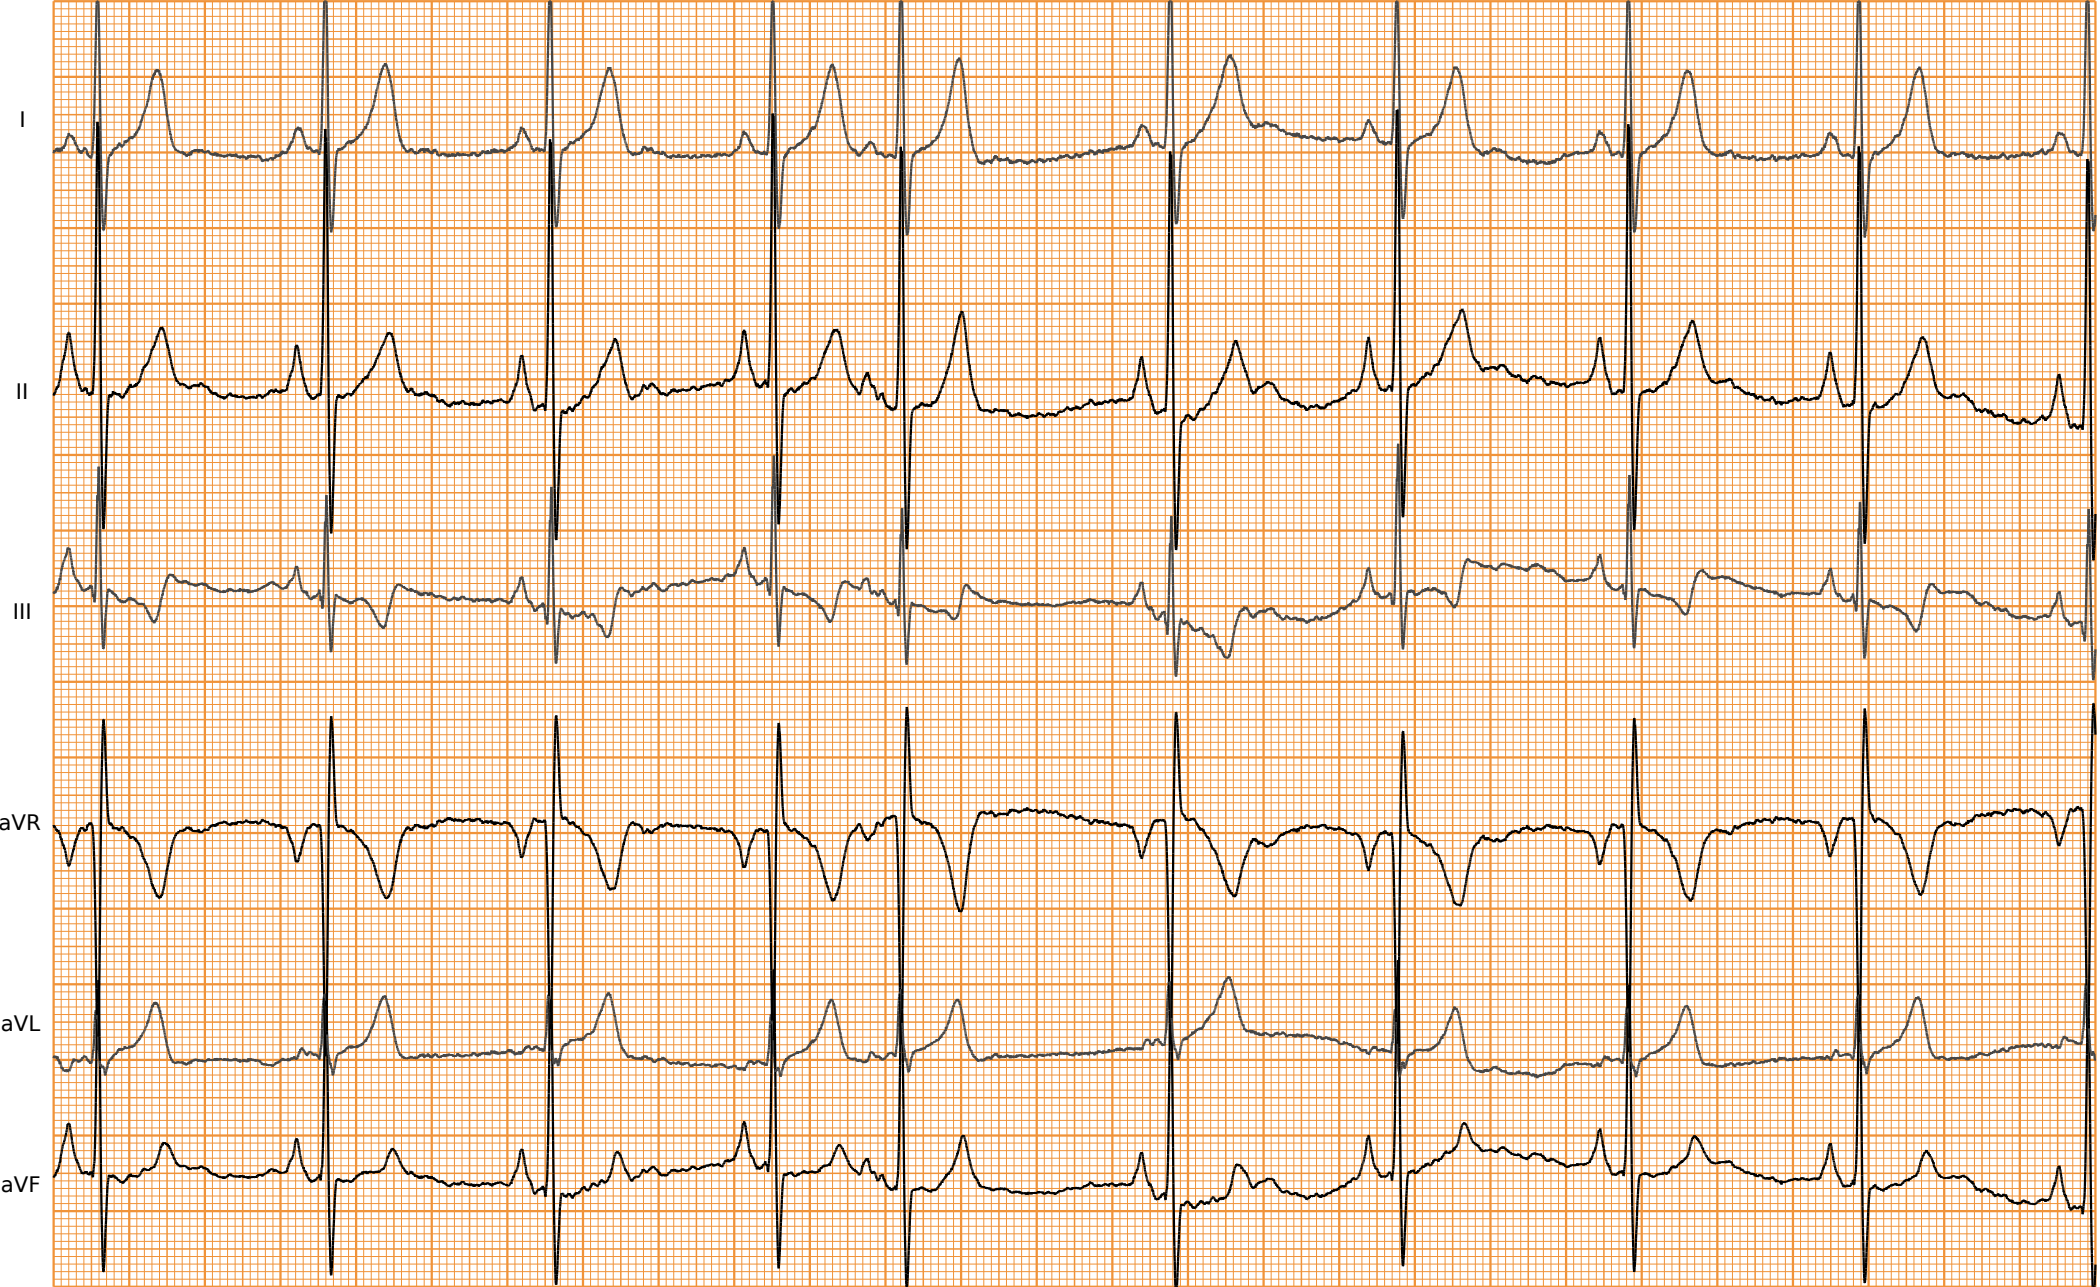

Doctor: Григорьева Елена Сергеевна
